

THEFT STOP 1 - AGAINST FUEL STEALING		
	APPLICATION	
	We recommend it for every company where fuel theft is a problem. The product prevents siphoning via the fuel fillingslot. Its installation is by a special adhesive.	
	FEATURES	
	❖ The product's material is stainless steel to ensure its resistance and durability in any circumstances.	
	❖ After the installation it's impossible to siphon the fuel from the filler.	
	❖ The anti-siphoning device prevents the potential overflow via closing the air valve of the nozzle.	
	❖ After fastening (gluing) the siphon it cannot be removed.	
	❖ Needs no maintenance.	
	SPECIFICATIONS	
	❖ The siphon is made from stainless steel. The valve-closing ball is from plastic.	
	❖ Our company installs the theftstop.	
	❖ The installation is possible into any free-hanging fueltank if the tank's material is known. It's needed to choose the right kind of adhesive.	
DETAILS		
Type	Weight	Material
THEFT STOP 1	2,7 kg	Stainless steel
